

ILLINOIS - MD 1

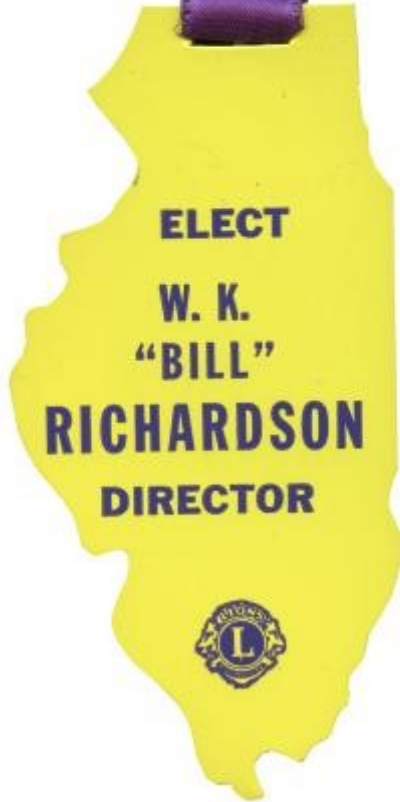

ILLINOIS is in the upper Midwest of the U.S.A. with a population of 12.9 million residents. Although this is the home of Lionism, which was started by a Chicago business executive, Melvin Jones, the state is better known as the "Land of Lincoln". Abraham Lincoln, although not born in Illinois, gained his political start in Illinois and was buried in the capital city of Springfield. The state has a broad economic base with huge agriculture areas, as well as mining and transportation industries.
