

MISSISSIPPI - MD 30

MISSISSIPPI is in the Southern U.S.A with a population of approximately 2.9 million residents. The Capital is Jackson, which is also home of **Jackson (Central)**, the oldest Lions Club in the state. The state was admitted to the Union in 1817, seceded in 1861 and readmitted in 1870. It has a humid, semitropical climate with long hot summers and short mild winters. "King Cotton" was the major agriculture crop for years before other crops were introduced in the early 1900's. Farm-raised catfish is now a significant factor in their economy.

1975-2

This 1975 V-2 is a rare pin. The original can be distinguished from one that has been altered by the position of the eagle head. The eagle head is below the line across the bottom of the flags on the variation. The eagle head rises above that line on the originals.

NOTE: In 2011 and 2012 there was a "Special" showing the Lady and the Man together on a pin. In 2013, the Council decided NOT to issue a similar pin so the Pin Traders of Mississippi issued the pin with the "MPTC" designation on the base.

NOTE: In 1983, the Sub-Districts in Mississippi issued individual pins denoting band members to go along with the MD-30 state pin. We normally do not show pins issued by Sub-Districts, but because of this unique arrangement and in view of the fact that they were traded by many as a set, we are showing them for your reference.
